- Linux: Files and Permissions

# Software Engineer & Network Administrator United Kingdom Degree

## Education and Training :

*2021-2025 SEP:* Bachelor's degree in Software Engineering from Cardiff Metropolitan University of United Kingdom.

*2021-2025 SEP:* Bachelor's degree in software engineering at Superior Institution of Science and Technology (SIST British University Associated with Cardiff Metropolitan University), Rabat, Morocco.

*2021:* High school degree in Science

## Project Experience :

January 2024 – March 2024: The Human Resource Management System project aims to provide a comprehensive solution for managing human resources, including job applications, skill assessments, and administrative tasks. It uses technologies like MongoDB, Express.js, React.js, Node.js, Bootstrap, HTML, and SCSS for user dashboards,application/registration. ( Link to GitHub)

April 2024– July 2024: Developed a showcase website for a real estate service using the Odoo CMS. Created a website with online store capabilities, including a display case for services and a product shop section. Demonstrated strong adaptability and professionalism, applying theoretical knowledge to real-world projects. (Link on GitHub)
